Address: 23 Gaa-Akanbi, 240222, Ilorin, Nigeria (Home)

ABOUT ME

Experienced Front-end Developer with passion for creating visually stunning and user-friendly web interfaces. Specializes in building responsive and interactive web applications using the latest front end technologies and frameworks. Always striving to deliver high-quality code and exceed client expectations. Seeking for opportunities to expand knowledge and stay ahead in the ever-evolving field of software development.

WORK EXPERIENCE

02/04/2020 – 31/12/2021 Lagos, Nigeria
WEB DEVELOPER/FRONTEND DEVELOPER TICKETBAY

- **Developed Company Website**: Built and launched the company's WordPress website, attracting over 200 daily visitors within the first three months.
- **Customized Website Features**: Implemented HTML, CSS, and JavaScript customizations to enhance the website's scalability, enabling it to handle transactions exceeding ₦1 million in under 14 months.
- **Developed Web Application**: Created a comprehensive web app using React.js and Bootstrap, based on Figma UI designs. The app included various user interfaces such as the landing page, user dashboard, organizer's dashboard, and admin dashboard.
- **API Integration**: Collaborated closely with backend developers to integrate and implement APIs, ensuring seamless functionality and enhanced user experience.

10/02/2022 – 31/05/2023 Ilorin, Nigeria
FRONTEND DEVELOPER PACIFYLABS TECHNOLOGIES

- **Enhanced User Experience**: Improved the interface design of existing web applications, significantly enhancing user experience and engagement.
- **Developed Fintech Dashboards**: Created new interfaces for fintech dashboards and SaaS products, ensuring modern and user-friendly designs.
- **Website Development and SEO**: Developed a multi-page website (over 10 pages) and implemented effective SEO practices, resulting in the site ranking on the first page of Google within five months of launch.
- **Mentorship and Team Development**: Mentored at least six team members, fostering their growth and helping them achieve personal and professional goals.
- **Healthtech Product Improvement**: Contributed to enhancing features of a healthtech product, leading to increased investor interest and affinity.
- **SaaS Maintenance**: Managed and maintained SaaS software and its database, ensuring optimal performance for over 500 users.

01/09/2023 – 31/12/2023 Ilorin, Nigeria
FRONTEND DEVELOPER MSMES ECOSYSTEMS LTD.

- **Interface Design Improvement**: Enhanced the interface design of existing websites and web3 applications, utilizing Next.js for optimal performance and user engagement.
- **Fintech Product Development**: Developed fintech products based on UI/UX designs from Figma, employing Next.js and Tailwind CSS to ensure responsive and visually appealing results. Also performed end-to-end testing using Cypress to guarantee high-quality releases and user satisfaction.
- **Testing and Automation**: Executed and automated end-to-end and component testing to ensure robust application performance and reliability.
- **Team Coordination and Leadership**: Coordinated multiple development teams to ensure timely and successful project completions. Led a team of frontend developers on fintech projects, ensuring alignment with project goals and timelines.

- **Skill Development and Mentorship**: Guided team members, enhancing their skills and contributing to the overall growth and development of the team.
- **API Integration**: Collaborated with backend teams to integrate REST APIs, ensuring seamless functionality across the application.

01/10/2021 – CURRENT Johannesburg, South Africa
FRONTEND DEVELOPER BARE MIND INC.

- **Figma to Frontend Conversion**: Transformed Figma designs into responsive landing pages using advanced frontend programming techniques, ensuring a seamless and visually appealing user experience.
- **Survey Web App Development**: Created a survey web app with React.js, which collected data from over 500 users, laying the foundation for the company's main web application.
- **Dashboard Development**: Developed and enhanced web application dashboards according to UI/UX designs from Figma, improving usability and user interaction.
- **Team Leadership and MVP Launch**: Led the development team in building and launching the Minimum Viable Product (MVP), successfully achieving a target of over 1,500 initial users.
- **Application Maintenance and Support**: Provided ongoing maintenance and technical support for web applications, ensuring optimal performance and user satisfaction.
- **API Integration**: Integrated APIs with frontend development, ensuring smooth data flow and functionality.
- **AWS Deployment**: Deployed applications to AWS, ensuring scalability, reliability, and performance.
